

CLINIC APPLICATION

The Clinic Application (“Clinic App”) is designed to facilitate an easy interaction between the patient and the patient’s circle of care within a specific care context.

For Clinicians/Health Care Providers

The Clinic App is designed to facilitate easy integration of the MyOSCAR Personal Health Record into daily clinic workflow within an EMR by providing clinics the ability to:

- ✓ Set parameters for manual or automatic data sharing with members of its clinic, including sharing of:
 - Lab results
 - Allergy profile
 - Immunizations
 - Prescriptions
- ✓ Set parameters for appointments that are accessible to be booked online for specific clinicians, services and/or teams
- ✓ Send and receive secure messages using a common clinic account
- ✓ Bill users for administrative transactions, including:
 - Providing immunization records
 - Sending prescription renewals
 - Other services as defined by the clinic

For Patients

The Clinic App allows for patients to “subscribe” to a clinic, and formally be authenticated as belonging to the specified health care facility or service. The Clinic App will provide patients the ability to:

- ✓ Authenticate as belonging to a clinic

The screenshot displays the SFHC patient portal interface. At the top, there is a navigation bar with five tabs: Home (dark grey), Book Appointment (orange), Add Relationships (orange), Send Message (orange), and Billing (orange). Below the navigation bar, the main content area is divided into two columns. The left column is titled "Address" and contains a box with the following text: "1475 Upper Ottawa, Hamilton, Ontario", "Hours: Mon-Fri : 10am to 2:30pm", and "P: Team A (905) 575-1300 Team B (905) 575-7757 Team C (905) 574-1444". The right column is titled "Appointment History" and contains a box with the following text: "Monday", "24 February, 2014", "doctor oscar doc", a "Cancel" button, and "09:30 AM". Below these two columns, there is a "News" section with a horizontal line and the date "20 February, 2014".
