

# IHE INTEGRATION STATEMENT

OSCAR 2014

## OVERVIEW

Integrating the Healthcare Enterprise (IHE) is an initiative created by professionals in the healthcare industry to help improve the way information systems share data in healthcare by promoting the coordinated use of established standards to address specific clinical needs in support of optimal patient care.

This IHE Integration Statement describes OSCAR's verified compliance with these profiles and the IHE Technical Framework. This enables OSCAR users to share data easily with other HIS/EHR systems that use the same profiles, taking OSCAR one important step closer to helping a patient's information move with them through the healthcare system.

Users familiar with these concepts can use Integration Statements as an aid to determine what level of integration this product supports with other systems and what clinical benefits such an integration might provide for them. Whether in community or hospital settings, this integration will ultimately improve the timeliness, effectiveness and safety of care.

## IHE INTEGRATION STATEMENT

Vendor	Product Name	Version
OSCAR EMR	OSCAR	OSCAR 14 (Beta)
Validation achieved on February 7, 2014		
This product implements all transactions required in the IHE Technical		
Framework to support the IHE Integration Profiles, Actors and Options listed below:		
<b>Integration Profile</b>		<b>Actors Implemented</b>
Cross-Enterprise Clinical Documents Share (XDS.b)		Document Consumer
		Document Source
Patient Identifier Cross-referencing for MPI		Patient Identity Consumer
		Patient Identity Source
Consistent Time		Time Client
Audit Trail and Node Authentication		Secure Node
